

Training Course **Data Analysis with SPSS**

Course Language **English (+ Arabic support staff)**

Course Duration Total Number of hours: 15 hours (3 hours per day – 5 days)
 Dates: 09 Sep – 18 Sep 2024
 Days: Monday, Wednesday and Thursday
 Time: 5:00 – 8:00 pm

Course Objectives Acquaint the participants with the basic principles and knowledge of applied statistical concepts.
 Train the participants to use the SPSS software for analysis of real life data
 Equip the participants with the choice of statistical method that better suits their research design and objectives
 Equip participants to use the statistical analysis for problem solving and decision making

Course Content **Course Key Topic Area Includes:**
 Introduction to Applied Statistics
 Introduction to SPSS Graphical User Interface
 Data Cleaning and Management in SPSS
 Descriptive Statistics
 Data Visualization
 Introduction to inferential statistics
 Parametric/Non-parametric tests
 Reliability analysis
 Correlation Analysis
 Multiple linear regression
 Logistic Regression

Learning Outcomes

At the end of the program the trainees will be able to:
 Demonstrate a solid understanding of fundamental data analysis concepts
 Develop proficiency in using SPSS software for data management, analysis, and visualization.
 Be able to use SPSS for descriptive and inferential statistical procedures
 Be able to interpreting and report the SPSS analysis results for problem solving and decision making

Target Audience

Graduate students
 Research professionals
 Business Analysts
 Healthcare/Social Scientist
 Those interested in professions related to data analysis

Course Material /Technology used/ Details Relevant to the course

Participants need to use the SPSS software
 Presentation material will be provided

Instructor Details & Brief Instructor Bio

Name: Dr. Saddam Akber Abbasi
 Title/Dept: Associate Professor (Dept. of Mathematics, Statistic and Physics) and Supervisor of Statistical Consulting Unit
 Mobile: 33662605
 Email: sabbasi@qu.edu.qa

Dr. Saddam Abbasi is currently working as an Associate Professor of Statistics in the Department of Mathematics, Statistics and Physics, College of Arts and Science, Qatar University. He also holds the position of Supervisor of the Statistical Consulting Unit at QU. He received Ph.D. degree in Statistics from The University of Auckland, New Zealand in 2013. Since then, he has served at prestigious institutions including 7 years of experience at Qatar University. He is deeply involved with research in the field of quality control, data science and industrial engineering. His research work resulted in more than 100 ISI ranked research articles with more than 2200 citations and an h-index of 27. He also acts as a reviewer for several international journals and conferences.
