Blackboard Collaborate with the Ultra Experience

Blackboard Collaborate

A real-time web conferencing tool that allows users to meet in a virtual space. The “Ultra” version opens directly in the web browser, so no need to install any software to join a session.

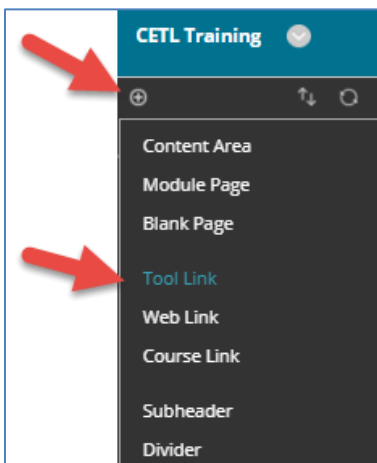

Compatibility

- Works best with Google Chrome browser
- Works well with mobile devices. Just install the Blackboard App

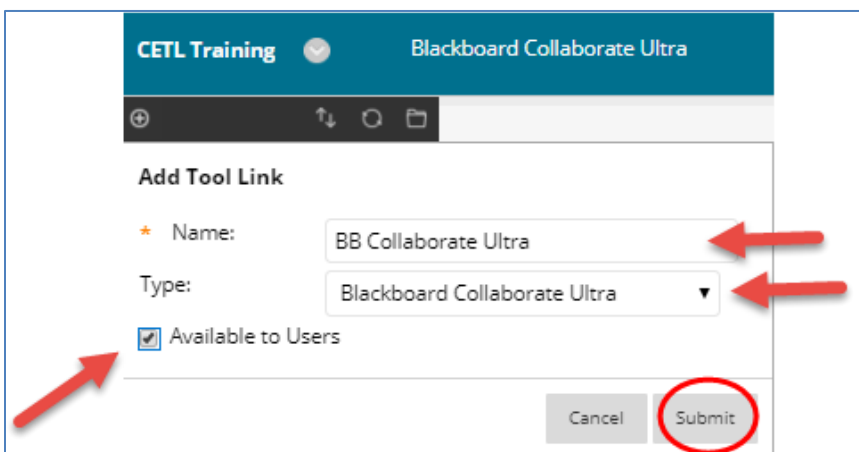

How to start using Collaborate in your Blackboard Courses?

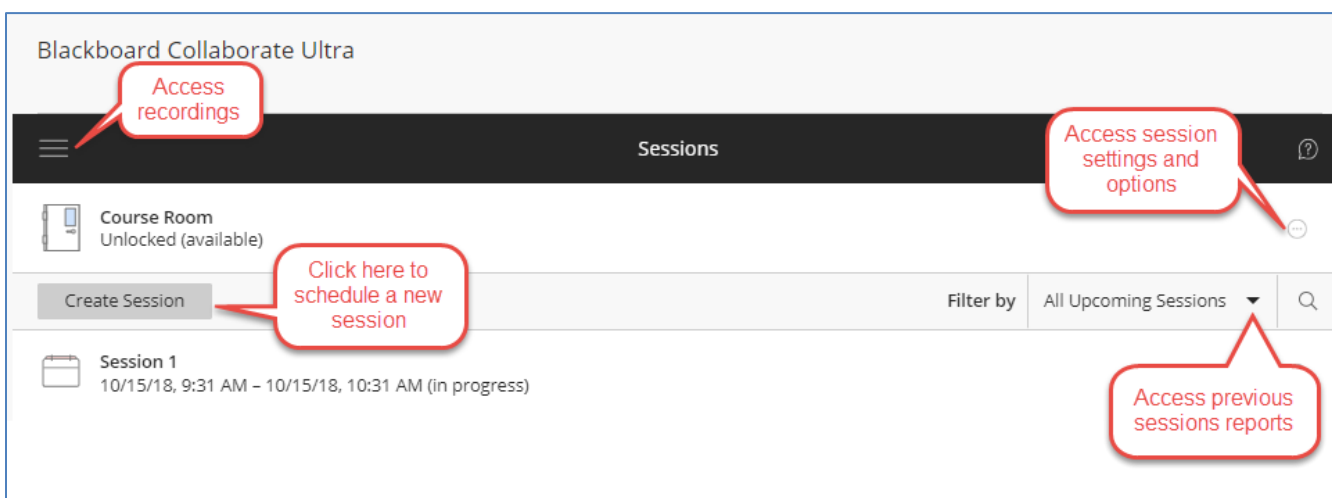

- On the top left menu, click on the “+” and then click “Tool Link”.

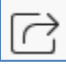

- Select “Blackboard Collaborate Ultra” from the “Type” dropdown list and give your link a name and then click “Submit”

- From the left menu, click on the “BB Collaborate Ultra” Link to open it’s page on the right..
- You can use” BB Collaborate Ultra” window, see below, to schedule a session, join a session, access recordings, reports, modify session settings, invite guests, etc.

Collaborate Interface Controls are organized in two separate areas:

- **The Collaborate Panel on the right side:** You can access the collaborate panel by clicking the arrows icon  on the right bottom of the screen. The panel will give you access to:
 -  Settings: configure audio, video, chat and whiteboard settings for all attendees
 -  Share Content: share Blank Whiteboard, Files, or Application/screen
 -  View attendee list: view attendees and control their permissions
 -  Chat: chat with everyone in the session or with moderators only
- **The session menu on the top left side**
 - Record a session
 - Get help
 - Technical options and reporting an issue
