### INCOMPLETE GRADES

Students / Registration / Student Records

A student may receive a grade of incomplete (I) in a course if he/she attends but fails to complete all the course requirements. The Incomplete grade is not an alternative for an (F) due to poor performance. To be considered for an incomplete grade, you must provide an acceptable justification for failing to complete the required work.

The deadline for changing an (I) grade is typically the last day of the second week of classes in the following semester. This day is identified on Qatar University's academic calendar. Upon successful completion of the required work, the course instructor will replace the (I) grade with a letter grade (A through F) and submit it to The Enrollment Management Department.

As per University policy, all grades of (I) that have not been changed by the end of the specified period will be changed automatically to an (F).
